Mohamed Moafy

MARINE TECHNICAN

Port Said | 01008432753 | Medomwafy5010@gmail.com

Objective

A final-year university student specializing in Ship Maintenance and Operation. Seeking to apply my practical engineering skills in marine systems, subsea robotics (ROV), and renewable energy to contribute to innovative marine and industrial projects

Experience

AQUA-WIND RECOVERY SYSTEM (AWRS) | Graduation Project

- **Co-developed a hybrid renewable energy system designed for green ships to optimize energy efficiency.**

Ship Engine Room Simulation Lab | Summer Trainee

- **Completed intensive summer practical training in the university's engine room simulation lab.**
- **Gained hands-on experience in marine engine operations, troubleshooting, and safety protocols.**

Cisco Networking Academy | Trainee

- **Completed technical coursework encompassing IT and networking fundamentals, culminating in a detailed technical video presentation project.**

Education

East Port Said Technological University | Port Said, Egypt ***Bachelor of Technology in Ship Maintenance and Operation*** **Expected Graduation: 2026/2027**

Skills & abilities

- **Management**
- **Problem solving**
- **Communication**
- **Leadership**
- **Technical Skills:** Python Programming, AutoCAD, Microsoft Office, Marine Systems Maintenance.
